No.4375-D1/53 dated 7th August 1953.

Sir,

Sub:-Industries-Sericulture-Government Silk Filatures-Kollegal-Buildings-Boilershed-Improvement-Provision of cut stone dressed flooring -Expenditure-Sanction of.

The Sericultural Expert, Government Silk Filatures, Kollegal has reported that the cement concrete flooring of the boiler room in the Government Silk Filatures, Kollegal has worn out and that unless it is replaced early it will be very difficult for the workers to move about and feed the boiler. The Executive Engineer, Salem Division, Mettur Dam, who was consulted in the matter has stated that cement concrete flooring cannot stand the rough use to which the boiler room is usually subjected to and has suggested that the existing flooring be replaced by cut stone slab floor of 6" thick at a cost of Rs.625/- including centage charges of Rs.77/- I enclose herewith the plan and the estimate received from the Executive Engineer.

2. In this connection I submit that according to clause 19 of the Standing orders relating to the Government Silk Filatures, Kollegal the Director of Industries and Commerce can sanction expenditure on special repairs upto only ½% per annum of the capital cost of the building. The Capital cost of the boiler room is Rs.2,562/- and as the estimated expenditure of Rs.625/- exceeds the above limit, I request that Government may be pleased to sanction an expenditure of Rs.625/- for executing the special repair work of replacing the flooring of the boiler room in the Government Silk Filatures, Kollegal.

3. The expenditure will be met from the provision of Rs.5900/- under "Petty construction and repairs" under "43.Industries and supplies- a - Industries- P.Government Silk Filatures- Kollegal- 5 Other charges."
